

Safety Code of Conduct

This is an agreement that all will follow within all welding, construction, animal, and horticulture labs instructed by Ms. Hartman. As a class we will hold ourselves to the following expectations:

- We will respect ourselves and others by taking all safety precautions into consideration.
 - We will dress appropriately for the laboratory.
 - We will act professionally when interacting with others.
- We will listen intently to all instructions given.
- We will respect equipment and space by leaving the laboratory clean at the end of the class.
- We will pass all safety quizzes and demonstrations with a 100% before operating said equipment.
- We will adhere to all guidelines that are explained in the classroom code of conduct.
- We will adhere to all guidelines as stated in the student handbook.

By following these guidelines and holding ourselves to these expectations we will have a successful year in the laboratory. Should these expectations be disregarded; we will consult the due process that is in place.
